

Home School Agreement

Where learning has no limits

In accordance with its aims, the school strives to provide all-round excellence in education, developing and nurturing the academic, artistic, social, spiritual, moral and physical resources of every child. We will strive to forge links between the home and school which will draw out the full potential of each and every child. We believe that the best way to achieve this is to seek an effective partnership between the home and school, the child, parents and the community.
