

WEEKLY BULLETIN

Where learning has no limits

Week beginning 29th October

Welcome back, we hope you enjoyed the half term holiday. This week, we welcome a new friend, William, to the Nursery. During the half term holiday new windows and doors were installed at Nursery, therefore, it might take us a few days to move all the furniture and resources back to their original places! We hope that the improvements will make the building warmer in Winter and cooler in the Summer!

Before the holiday, we noticed many children were having fun pretending to be robots and some really enjoyed a story called 'No-bot'. Therefore, for the next few weeks we will be thinking about robots and will set up a 'Robot workshop' in the role-play area. We would gratefully receive any unwanted cardboard tubes and boxes so that we can create robots by 'junk modelling'.

We will continue to follow the 'Jolly Phonics' programme, and this week we will be focusing on the 'N' phoneme.

Our Mathematics activities will include making arrangements with shapes and then comparing their sizes. We will use resources such as Duplo blocks, chain links and Numicon shapes to make such comparisons.

Thank you

Carol Lewis, Tracy Hester and Aneeqa Anwar
